Annual output

We are a high-tech company specializing in the R&D, production and sales of degradable polymer materials and products, and providing one-stop solutions. The company produces biodegradable straws, paper straws, plastic cups, paper cups, paper bags, plastic bags and other products.

The company covers an area of more than 17,510 square meters and has a standardized clean workshop of more than 13,000 square meters. At present, it has hundreds of automation equipment such as PLA straw extrusion unit, injection molding unit, in-mold labeling unit, paper cup unit, and printing unit. The annual production capacity is over 10,000 tons.

The company has 116 employees, more than 10 engineers and technicians have been engaged in the total degradation of polymer materials for more than 15 years. We support flexible customization, OEM and ODM customization. The company has passed ISO22000 international food safety management system certification and BRC system certification, and its products have passed the test of SGS.

The products are supplied to major shopping malls, supermarkets, dairy companies, food companies, as well as major fashion beverage and restaurant chain stores at home and abroad.
